

Board names Lee sixth president of Gallaudet College

The Board of Trustees of Gallaudet College voted unanimously last week to appoint Jerry C. Lee sixth president of Gallaudet. At the same time, the Board voted to disband the presidential search committee.

Lee's presidency began immediately following the Board action May 20, ending his four-month term as the College's interim president. Lee, 42, began serving as interim president after the resignation in January of W. Lloyd Johns, the College's fifth president.

Board Chairman Jane Bassett Spilman expressed the Board's confidence that Lee "will provide the business judgment and managerial expertise to guide us through the maze of budgetary challenges which we are currently facing."

He is "the right man at the right spot at the right time," Spilman stated.

Lee came to Gallaudet in 1971. Before becoming the College's interim president, he served as vice president for Administration and Business.

An installation ceremony will be held in October.

Board expresses thanks to Brown

The Board of Trustees of Gallaudet College at its meeting last week approved a resolution expressing appreciation to Katie M. Brown for her years of service as a member of the Board.

Brown, a 1964 graduate of Gallaudet, served on the Board for 10 years before resigning in March.

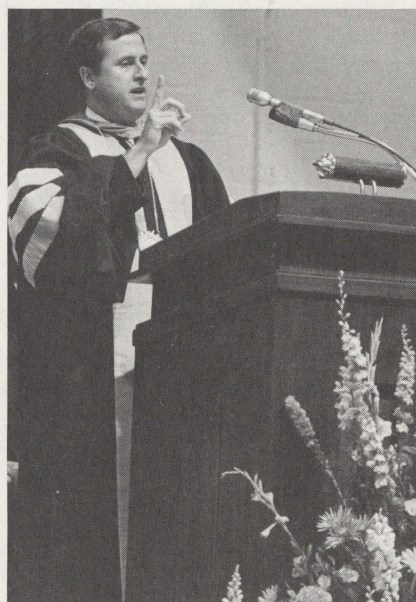

"My tenure on the Board has been rewarding and gratifying," Brown wrote in an April 11 letter to Board Chairman Jane Bassett Spilman.

Brown, who is involved in various organizations and associations serving deaf people, works as a counselor with the Jewish Vocational Service in Chicago, IL.

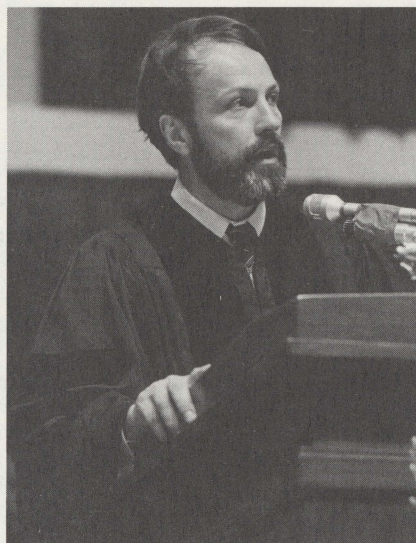

OTG notice

Beginning next week and for the remainder of the summer, *On the Green* will be reduced in size from four to two pages. The paper will continue to be published on a weekly basis during the summer months.

Information for publication in *On the Green* should be sent to the Alumni and Public Relations Office at Chapel Hall. Deadline is 10 days before publication date.

Gallaudet President Jerry C. Lee makes the opening remarks during the College's 120th Commencement.

Congressman David E. Bonior, Commencement speaker and the recipient of an honorary degree.

Gallaudet holds 120th Commencement 256 students graduate

Gallaudet College's 120th Commencement was held last Monday, during which time 256 students received degrees. One hundred and forty five bachelors degrees were awarded, along with 101 masters degrees, nine associates degrees and one doctorate degree.

Gallaudet President Jerry Lee, in his opening remarks, said that graduation "reflects the shared commitment of many people." Before degrees were awarded, Lee asked the graduating class, their families and friends, faculty members and the Board of Trustees to stand and be recognized.

Lee also recognized Edward C. Merrill, Jr., Gallaudet's fourth president, Al Pimental, executive director of the National Association of the Deaf, Boyce Williams, Powrie Vaux Doctor Chair, and members of the 1934 Class of Gallaudet who attended Commencement exercises at the Field House.

Monday's Commencement marked the first time students in several College departments received diplomas. Those programs included Educational Technology, Computer Science, Recreation and Leisure Studies, Visual Media, Honors in Psychology and Honors in English.

It also marked the last Commencement for seven retiring faculty members, each of whom received a plaque of honor during the ceremony. Receiving plaques were: William Stokoe, Linguistics professor and director of the Linguistics Research Lab, for 29 years of service; Jeanne Conway of Library Science for 14 years of service; Leon Auerbach, professor of Math and Computer Science, for 40 years of service; Francis Higgins, Chemistry pro-

Bonior gives address

Congressman David E. Bonior, speaking at Gallaudet's 120th Commencement last Monday, urged each of the College's 256 graduates to be a "keeper of the dream."

"For what you have achieved and what happens here today, you are a witness to the fact that dreams do come true . . . By what you do tomorrow, you can help keep those dreams alive," stated Bonior (D-MI), a member of the College's Board of Trustees.

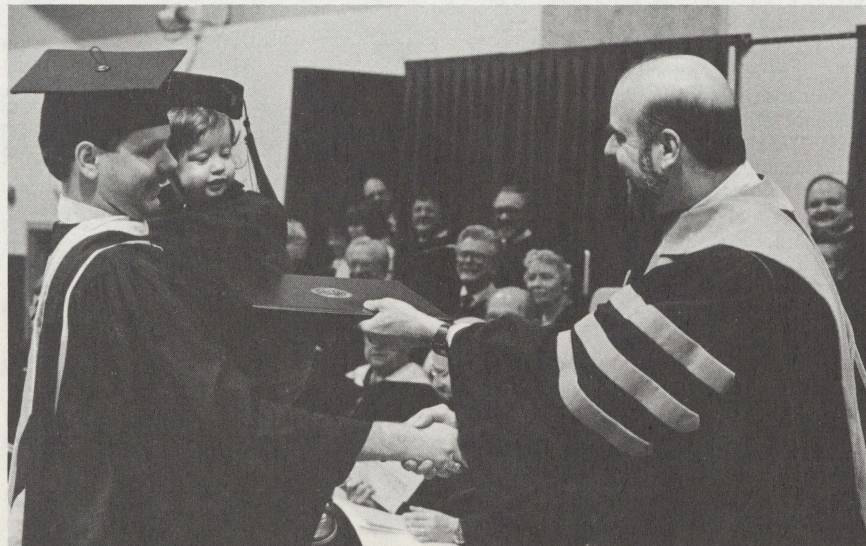

Bonior called the establishment of Gallaudet College in 1864 "a bold national statement that the hearing impaired are people too, that they have the capacity to learn and the capacity to teach, and should be given the opportunity."

"Gallaudet College," he continued, "stands as one of the sharpest examples of the dream that has propelled our nation—believing in each other, daring to make the impossible become the possible."

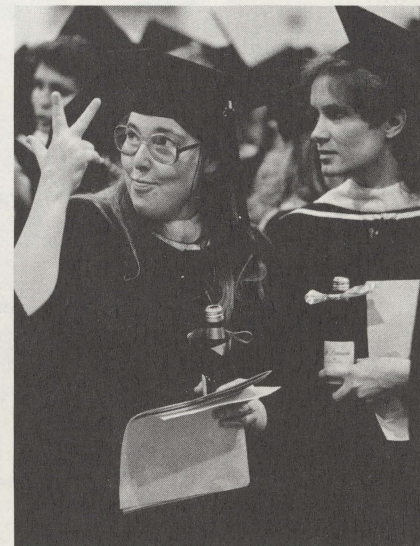

But, he cautioned, the nation seems to be losing that dream. "We have just weathered the deepest recession since the Great Depression. Before us and behind us, on the right and on the left, are those who, discouraged by our economic problems, would suggest that it is time to stop dreaming. At the federal level, the budget for higher education has been slashed and the Congress fights just to maintain the past level of funding. Special programs for the disabled, like the Education for All Handicapped Children Act or the Vocational Rehabilitation Act, have become budget battlegrounds."

Bonior talked about the federal budget proposal for fiscal year 1985 which calls for a \$10 million cut in the

Graduate Gary Malkowski's daughter, dressed for the occasion, accompanies her father on stage as he receives his diploma from Norman London, a representative from the Embassy of Canada.

Two graduates await receiving their masters degrees, champagne in hand.

MSSD student Paul Rauch displays the plaque and ribbon he received as the winner of the Eastern Regional Science Fair for Hearing Impaired High School Students. His winning project was titled, "Can a Python Hear?"

MSSD students win science awards

MSSD students took all the top awards as the school hosted the Second Annual Eastern Regional Science Fair for Hearing Impaired High School Students on May 10 and 11.

Competing against a total of 31 students representing seven schools, MSSD students won first through fifth place awards, plus two of four honorable mentions.

Paul Rauch, from McLean, VA, received the competition's highest honor for his project, "Can a Python Hear?" Sandra Peverly, from Phoenix, MD, won second place; Ellen Smith, from Richmond, VA, won third; John Freeman, from Westerville, OH, took fourth; and Charles Humphrey, from Seekonk, MA, placed fifth. Frank Carter, from King of Prussia, PA, and Fritz Koehring, from Alexandria, VA, both received honorable mentions.

Students from Vineland High School in Vineland, NJ, won the other two honorable mention awards.

The MSSD students devoted their free time for the better part of this school year to their projects, which also addressed such varied topics as photomicrography, solar energy and the wavelengths of light.

MSSD's science department, sponsor of the event, was pleased with both the turnout and the level of competition.

In all, nine MSSD students participated, along with students from the Ohio School for the Deaf; the New York School for the Deaf at White Plains; John Marshall High School in Richmond, VA; Marietta High School in Marietta, OH; Midland Park High School in Midland Park, NJ; and Vineland High School in Vineland, NJ.

Three associate professors at Gallaudet helped to judge the entries: Charles Giansanti and Walter Trafton from the Department of Chemistry and Gerald Daly from the Department of Physics.

Advocacy Notes

Recent Developments by Merv Garretson

- The TeleBraille is a new, revolutionary communication system for deaf-blind people which will be on the market this summer. It should result in increased independent living for thousands of deaf-blind persons.

Following an original prototype created at the Helen Keller National Center for Deaf-Blind Youths and Adults at Sands Point, NY, the National Institute of Health (NIH) awarded a grant to Telesensory Systems, Inc. to develop and manufacture the device.

The entire TeleBraille system is portable and battery operated. The deaf-blind person sends his message on a braille keyboard and receives messages through a braille display consisting of several rows of pins that are raised and lowered to display a line of 20 cells in braille. The sighted individual sends messages through a TDD keyboard connected by cable to the braille unit and also receives visually on the TDD display. The system can be used for interpersonal communication or for telephone communication like a regular TDD.

Because the \$5,500 price tag is out of reach for most deaf-blind people, the American Association of the Deaf-Blind (AADB) is contacting foundations, industry, telephone companies and others to obtain support. The AADB may be contacted at 805 Easley Street, Silver Spring, MD, 20901.

- Frank Bowe has joined the staff of the Architectural and Transportation Barriers Compliance Board (ATBCB) as a communications specialist. While a visiting professor at the University of Arkansas Research and Training Center, he recently completed a series

of publications on disability statistics and data, "Demography and Disability: A Chartbook for Rehabilitation," "Disabled Women in America," "Black Adults with Disabilities," and "Disabled Adults of Hispanic Origin." Bowe, who received his masters degree in education of the deaf at Gallaudet, formerly served as executive director of the American Coalition of Citizens with Disabilities (ACCD).

- A former Gallaudet faculty member and chairman of the Preparatory Department, Edward L. Scouten, has published a book of historical events shaping the education of the deaf, "Turning Points in the Education of Deaf People." Scouten is now with the National Technical Institute of the Deaf, a unit of Rochester Institute of Technology in Rochester, NY.

- The Pennsylvania School for the Deaf (PSD) has sold its Mt. Airy campus and discontinued its high school program. In April, PSD completed negotiations to purchase the old Germantown Academy site and buildings for the sum of \$50,000. It will require 12 to 18 months to complete renovation and reconstruction, which is estimated at \$4 million.

The new school will be located at Greene Street and School House Lane, near the Germantown Friends School. Plans are to open in late September for children up to 13 years of age even though construction will have begun in earnest. PSD, which is a private school, will be the center school option for deaf and hard of hearing children within commuting distance of the facility and will continue to provide its outstanding and creative bilingual and bicultural program.

Funds targeted to counseling program

Gallaudet College received \$5,750 as one of the beneficiaries of the annual Bartenders' Ball this year. The money will be used to support the Community Counseling Services for the Hearing Impaired (CCSHI), a clinical training facility for graduate students in the Department of Counseling at Gallaudet. Graduate students, working under faculty supervision, provide counseling to hearing impaired residents of the metropolitan Washington, D.C. area and their families.

Besides Gallaudet, the 1984 Bartenders' Ball benefited St. John's Child Development Center, So Others Might Eat, the Higher Achievement Program, the Shaw Community Center, Whitman Walker Clinic, Children's Museum of Washington, Arena Stage, Spinal Cord Injury Association and the Hospital for Sick Children. Gallaudet was selected on the basis of the special challenge it faces now because of the rubella epidemic of 1964-65.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on these and other programs of interest can be obtained from the Office of Sponsored Research at x5030 (voice or TDD).

Deadline	Program
6/20/84	ED: Handicapped Children's Early Education Program
7/01/84	NIA: Social Environments Influencing Health and Effective Functioning in the Elderly
7/02/84	NSF: Presidential Young Investigator Awards
7/02/84	ED: Innovative Programs for Severely Handicapped Children
7/02/84	ED: Training Personnel for the Education of the Handicapped Program
7/02/84	ED: Services for Deaf-Blind Children and Youth Program
7/06/84	ED: Secondary Education and Transitional Services for Handicapped Youth
7/15/84	Deafness Research Foundation: Research Grants

9/30/84	WHO: Fellowships for Travel/Study Abroad
10/01/84	NINCDS: Neurological Basis of Language, Behavior, Learning Disorders

Applications accepted

The Department of Education is accepting fiscal year 1985 applications for new projects under the Secondary Education and Transitional Services for Handicapped Youth program. Applications are due on July 6.

This program supports research, development, demonstration and evaluation projects that improve secondary special education and other services for handicapped youth in order to assist them in the transition from secondary school to postsecondary environments.

Up to \$3 million will be available for 33 new projects in FY 1985, which will be divided equally for transition strategies and techniques, service demonstration models and cooperative models for planning and developing transitional services.

For further information, contact Dr. William Halloran, Research Projects Branch, Office of Special Education Programs, Department of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202, 732-1064.

Jean Berube of the Department of Physical Education and Athletics goes out on a limb while teaching a discovery course.

fessor, for 37 years of service; R. Orin Cornett, director of Cued Speech, for 19 years of service; Richard M. Phillips, professor in the Department of Counseling, for 32 years of service; and Sara Withers of the English Department for 27 years of service.

Congressman David E. Bonior (D-MI), a member of the Board of Trustees and the Commencement speaker, received this year's only honorary degree. Bonior, who was first elected to Congress in 1976, has served on the Board of Trustees since 1979. He is a member of the House Rules Committee and has spearheaded the effort in Congress to restore funds to the fiscal year 1985 operating budget of MSSD and KDES.

In presenting the honorary Doctor of Laws degree, Vice President for Academic Affairs John Schuchman read from a citation which described Bonior as "an advocate for the American deaf community."

Judy Harkins, coordinator of Research Utilization and Publications in the Office of Research Utilization, was awarded a doctorate degree, the only one granted during Commencement.

A number of members of Congress and representatives from embassies were on hand Monday to present degrees to students from their states or countries.

Members of Congress included Bonior, fellow Board member Ronald Packard (R-CA), G.V. Montgomery (D-MS) and Harley Staggers, Jr. (D-WV).

Embassy representatives included Andre' Jacquet, counsellor with the Embassy of South Africa, Binfa Selchum, charge d'affaires with the Embassy of Nigeria, and Norman London from the Embassy of Canada.

Minerva M. Choe signed the National Anthem and the Gallaudet Dancers and Gallaudet Chorus performed during Commencement. The invocation was given by Monsignor W. Louis Quinn. The benediction was given by Francis Higgins.

Cabaret set for June 1

A Cabaret, featuring a cash bar, hors d'oeuvres, songs, dances and stand-up comics, will be held at "Ole Jim" Friday, June 1 beginning at 8 p.m. Admission is \$5 per person and tickets must be purchased in advance. For information as to ticket availability, contact Mary Anne Pugin at "Ole Jim."

Teresa Hoffman Greenley, a reporter from the *Pensacola News*, received the first Gallaudet Journalism Award Monday during the President's Luncheon at "Ole Jim." Greenley, who spent 10 months learning sign language for a series on deafness, signed as she accepted the award.

German athletes arrive on campus

by Mike Kaika

In the first of what is hoped will become an exchange program between deaf American and West German athletes, a track meet between the two countries will be held on campus early next month.

Twenty West German athletes and coaches, including the internationally known Rita Windbrake, arrived in Washington, D.C. several days ago for the June 8-9 meet. Following a three-day sightseeing trip to New York, the West German team will stay in a Gallaudet dormitory during their 10-day stay.

Tom Berg, facilities coordinator in the Department of Physical Education and Athletics, and Donald Ammons, an instructor in the Romance Languages Department, are coordinating the meet. Berg and Bob Corbett, a Gallaudet graduate, will coach the United States team.

The track meet is sanctioned by the American Athletic Association of the Deaf, The Athletic Congress and the International Committee of the Silent Sports (CISS).

"We have a commitment to continue this program, and we plan to go to Germany in 1986 for an international track meet," Ammons stated.

Competition on Friday, June 8 and Saturday, June 9 is scheduled from 2 to 5 p.m. Track events will consist of 110 meter hurdles, 1,500 meter run, 100 meter run, 200 meter run, 400

Bonior speaks at Commencement

continued from page 1

MSSD and KDES operating budgets and would require Gallaudet to charge local school districts and the families of hearing impaired children educational expenses incurred by those students attending MSSD or KDES.

Such tuition payments, Bonior argued, would return "us again to an age when education was a gift for the elite."

"You are here today, rightly proud in your Commencement gowns, because you have extraordinary abilities but skill alone is not enough," Bonior told the graduates. "You are here today, waiting for your parents' glowing words of praise, because you have worked hard, but discipline alone is not enough."

"You are here today because more than 100 years ago someone had a bold dream and Gallaudet was born. You are here today because in the

decades that followed, one generation after another fought for that dream, preserved it and enlarged it.

"Skill and hard work are important, but they require opportunity as well. Today is a day for pause, but when the sun sets on today's just pride, the question you will face is whether you will accept this heritage of dreaming and risk becoming a dreamer too," he said.

Bonior pointed to the words of Dr. Martin Luther King, Jr. 20 years ago: "I have a dream." In that speech, King spoke for all Americans, Bonior said.

King, Bonior said, "reminded all Americans of the need to move forward. He was a keeper of the dream. 'Whether it is disabled rights or civil rights, educational opportunity or employment, the dream is always the same. It is to see each other as individuals and avoid the stereotypes of hate. It is, most of all, to see in each person not just what they are today, but what they hope to be tomorrow.'"

Bonior called Section 504 of the Rehabilitation Act prohibiting discrimination on the basis of physical or mental handicap "a new and fragile dream just meeting its first test" today. "You will decide," he stated, "whether that dream will slowly fade and be forgotten or steadily grow."

The greatest challenge ahead, Bonior told the Class of 1984 is "living your personal life with dignity."

"Yet if you will remember the heritage of dreams that brought you to this day; if you will dedicate yourself to encouraging the aspirations of others; if you will make your convictions count, then you will find a quiet self-confidence that will ease disappointments."

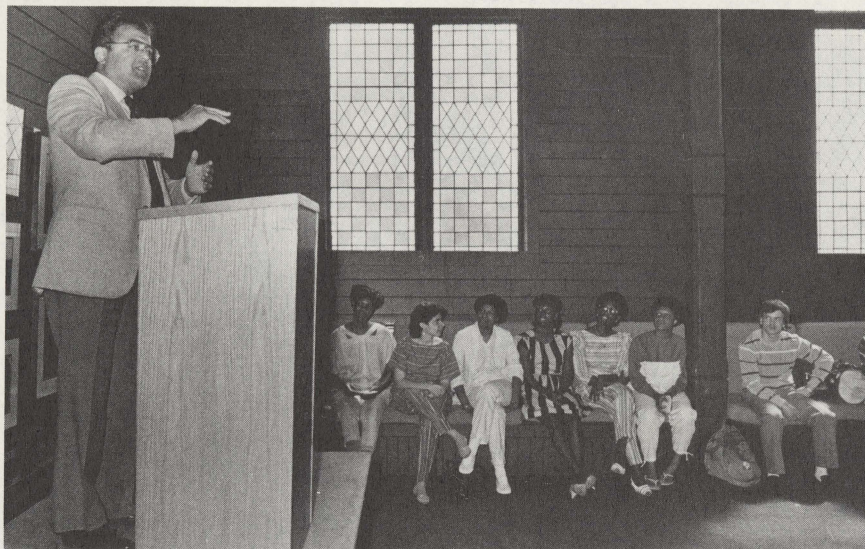

"If you will become a keeper of the dream," he concluded, "you will have a chance at private joy that few will ever know."

Health service hours

The Student Health Service will change to its summer hours beginning Friday, June 15 at 5 p.m. The summer hours will be weekdays from 8 a.m. to 5 p.m.

There will be no service during evening hours and on weekends. In case of emergency, the Department of Safety and Security should be contacted at x5555.

The summer hours will remain in effect until July 30.

Robert Davila, vice president for Pre-College Programs, addressed a group of MSSD students May 10 at "Ole Jim" during the MSSD senior reception.

Summer session activities offered

The Intramural Office is planning a number of activities for the six-week undergraduate summer session which runs from June 4 through July 13.

Team sports, individual sports and a bowling league will be offered. Team sport offerings are softball, volleyball and basketball while individual sport offerings are tennis and racquetball.

Faculty and staff members are welcome to participate in the activities. Interested persons must sign up on June 4. The Intramural staff will take sign-ups and will answer questions at all meals that day in the College Dining Hall and during lunch at the Snack Bar at the Ely Center.

Team sports will begin Wednesday, June 6. Softball will be played on Mondays and Wednesdays and basketball on Tuesdays and Thursdays. The bowling league will meet on Thursdays. Depending on the number of teams, additional games might be scheduled on other evenings. However, the Intramural staff will attempt to follow this schedule.

Tennis clinics will be led by Dave Wertheim, a member of the campus security force and certified tennis instructor with the Professional Tennis Registry. A beginners' clinic will be held Wednesdays, June 6, 13 and 20 at noon on the main tennis courts near West Virginia Avenue. An intermediate/

advanced clinic will be held on the same tennis courts Fridays, June 8, 15 and 22. If interest warrants, the clinics will continue for an additional three weeks.

Names of interested tennis players and their skill levels will be posted in Hughes Gym. Individuals are encouraged to contact other players to set up matches.

Tennis tournaments will be held June 17 and July 18 at the main courts.

Racquetball play will revolve around challenge courts in which players meet at the Field House racquetball area at designated times, are assigned a number and skill level, then challenge the winner of the previous game. Two tournaments are scheduled—one for Sunday, June 17 and the other for Sunday, July 8.

The dates for the challenge courts for the June 17 tournament are: Thursday, June 7; Tuesday, June 12; and Thursday, June 14. Game time each day is 6 to 10 p.m.

The dates for the challenge courts for the July 8 tournament are: Thursday, June 28; Tuesday, July 3; and Thursday, July 5. Game time each day of play is 6 to 10 p.m.

For more information, call Gloria Bowman at x5682.

General campus announcements

• The Mid-Atlantic Chapter of the American Society of Group Psychotherapy and Psychodrama (ASGPP) will sponsor its first annual psychodrama conference at Gallaudet June 8-10.

The conference will feature all-day, half-day and two-hour training sessions aimed at acquainting the novice and experienced practitioner to action methods and psychodrama techniques. It should be especially pertinent to persons working with deaf and hearing people in education, mental health and business.

Sign language interpreters will be provided during the conference.

For more information about conference fees and specific training sessions, contact the Mid-Atlantic Chapter ASGPP, 314 Moncure Drive, Alexandria, VA, 22314.

• Three Gallaudet students have been named the winners in the student photo contest held in conjunction with the Ansel Adams exhibition on campus.

Sandy Gournaris won first place for her cobblestone street scene, Sharon

Wicker was awarded second place for her photograph entitled, "Awaiting Entrance" and Kelly Leigh Doucet took third place for her photo of a girl and a chipmunk.

Each of the three winners received one of the framed Ansel Adams posters on display around campus. The posters were autographed by Adams.

• Registration for summer sign language classes will be held June 1 from 9 a.m. to noon and 1 to 3 p.m. in the second floor lobby of Kendall Hall.

Sign language classes for employees will be offered at the Beginning I, Beginning II and Intermediate I levels. Classes, which will meet twice a week for two hours a day, are scheduled from June 4 to July 27.

Anyone interested in taking classes above the Intermediate I level as well as departments wishing to have an inter-departmental class offered should contact Lynn Jacobowitz at x5630 or x5633. Such classes will depend upon enrollment.

MSSD students to perform off campus

The Performing Arts Department of MSSD will provide entertainment June 2 at the Kings Dominion amusement park in Doswell, VA. Students will perform numbers from their musical production, "Godspell" at the International Street Bandstand. Deaf Dimensions dance company will perform at the Woodland Amphitheater at the amusement park the same day.

The performances are scheduled on the day Kings Dominion is offering reduced rates for hearing impaired persons, their family and friends. Individuals can purchase tickets for \$8.95 a person and groups may purchase

tickets for \$7.95 a person. The special admission price entitles visitors to all the rides, shows and attractions throughout the day.

Displays and exhibits will be set up throughout the day with information pertaining to hearing impairment. At specified times during the day, interpreters will be on hand at several shows including "Celebration" and "Surf's Up." Interpreters will also be available at the Deaf Awareness Day ticket window and at Guest Services.

For more information, call Kings Dominion at (804) 876-5000 (voice only).
